4-H PEI Communications Project

The goal of the Communications project is to assist members in strengthening their communications/public speaking skills throughout their 4-H career. The aim is to ensure that members are aware of the areas they are doing well, and also the areas where they may need to improve as they develop this skill.

There have been some updates to the 4-H PEI Communications Project:

SPEECH

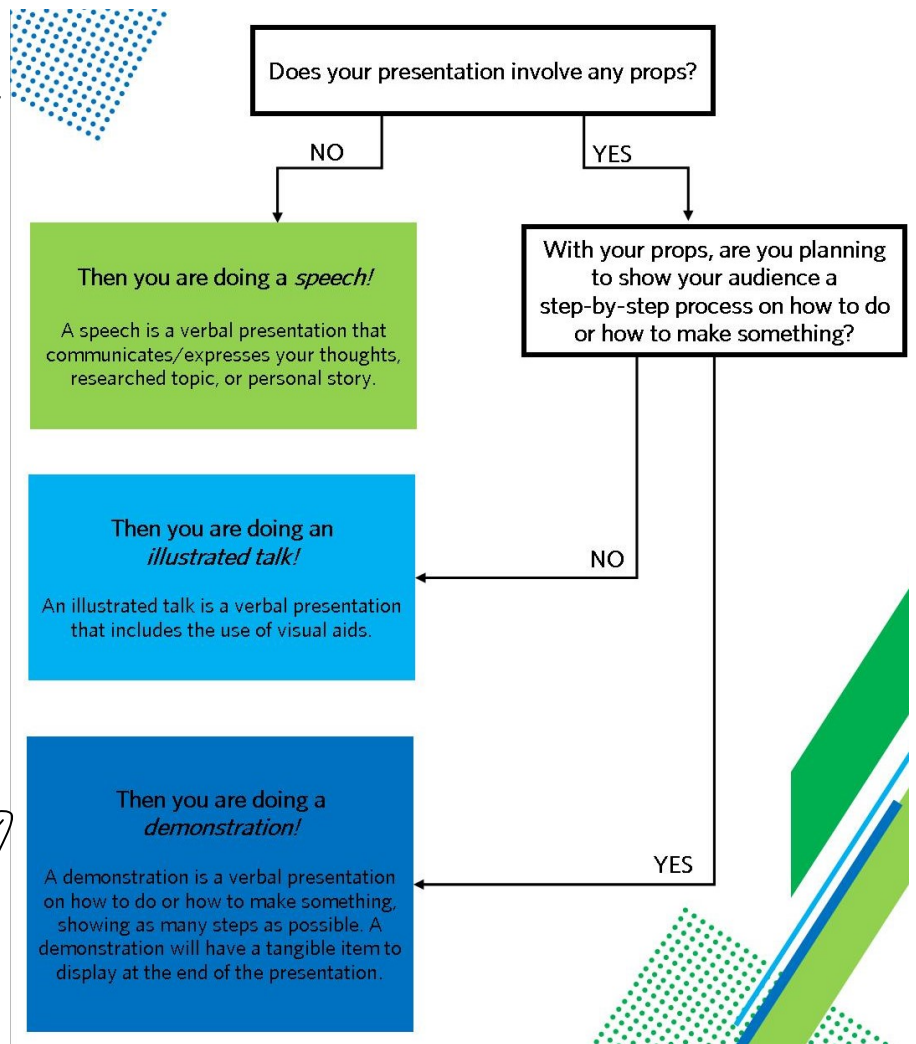

You are doing a speech if you are telling a story or sharing about a topic you would like the audience to know more about without the use of visual aids.

DEMONSTRATION

You are doing a demonstration if you are showing the audience how to MAKE or DO something. A demonstration is the combination of speech and action which follows a process and/or steps, has a tangible item to show for the conclusion with the use of materials, props and posters. The audience should leave the presentation with the knowledge to recreate what was taught in the demo.

ILLUSTRATED TALK

Illustrated talks are formatted like a speech, with the addition of the use of visual aids (pre-made posters, printed images, computer programs, slideshow, pictures, models, and/or items) to support the information shared. There is no final product and there are no limits or specific criteria for visual aids.

Not sure what you'll be presenting for your Club's Communications?
Check this out!

4-H PEI Royal Teams

We want to say a huge CONGRATULATIONS to both our 4-H PEI Royal Beef and Dairy Teams!
